

The First Journey

How did humans spread across the world?

You must leave your home

- No food 🍕
- Climate changing ❄️
- Danger ⚠️

You can only take 3 things

What do you take?

Where do you go?

Stay

Follow animals

Find water

Explore

This actually happened

- Humans started in Africa
- They moved over time

Why did they move?

Why leave home?

Push factors

- No food 🍕

- Climate ❄️

- Danger ⚠️

Pull factors

- Water 💧

- Animals 🐾

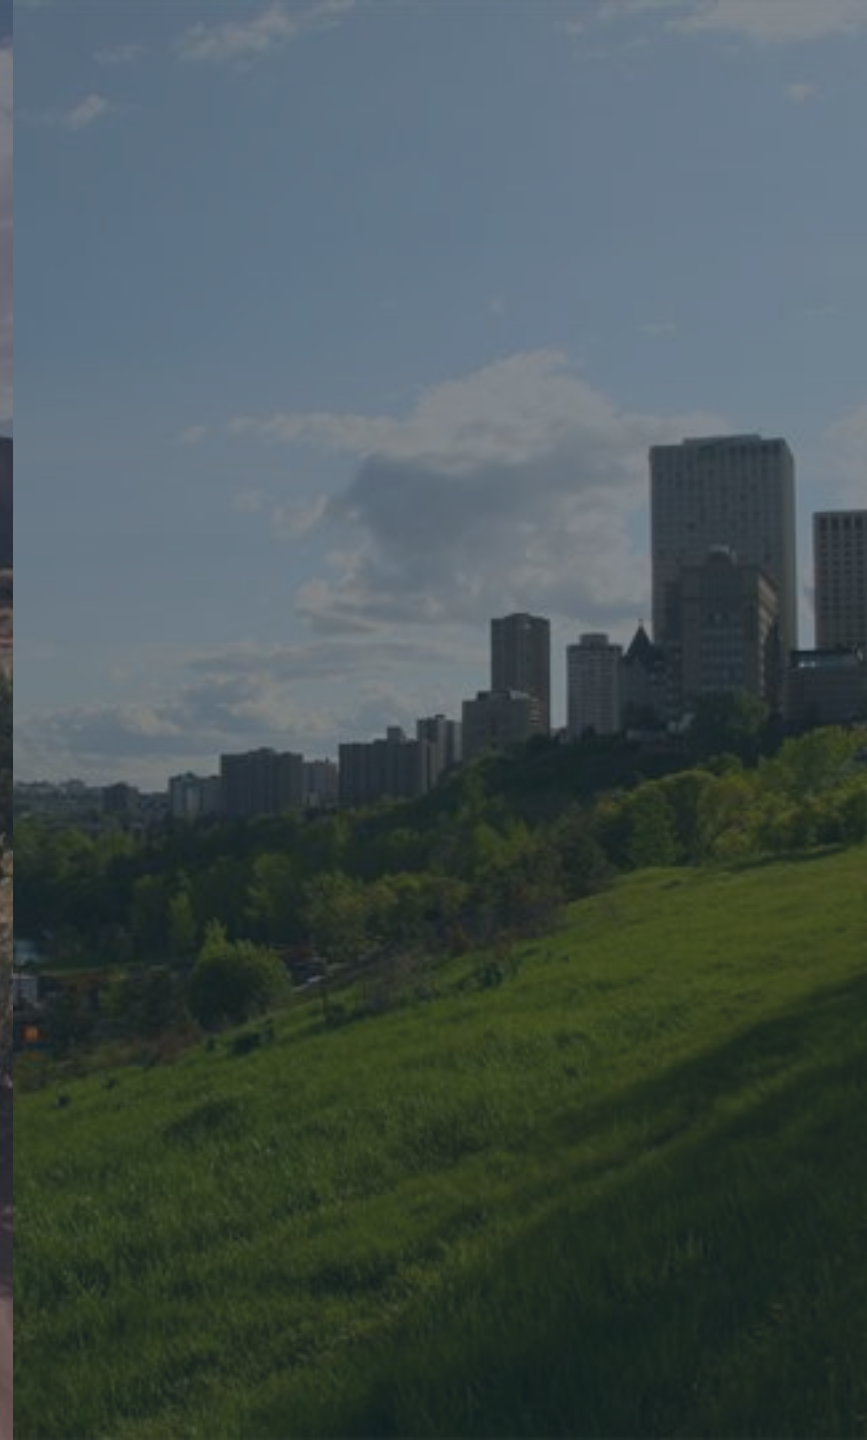

- Better land 🌿

Can you survive?

Ice ❄️

Ocean 🌊

Desert 🏜️

Choose your path

Where do you go?

→ Movement of early humans

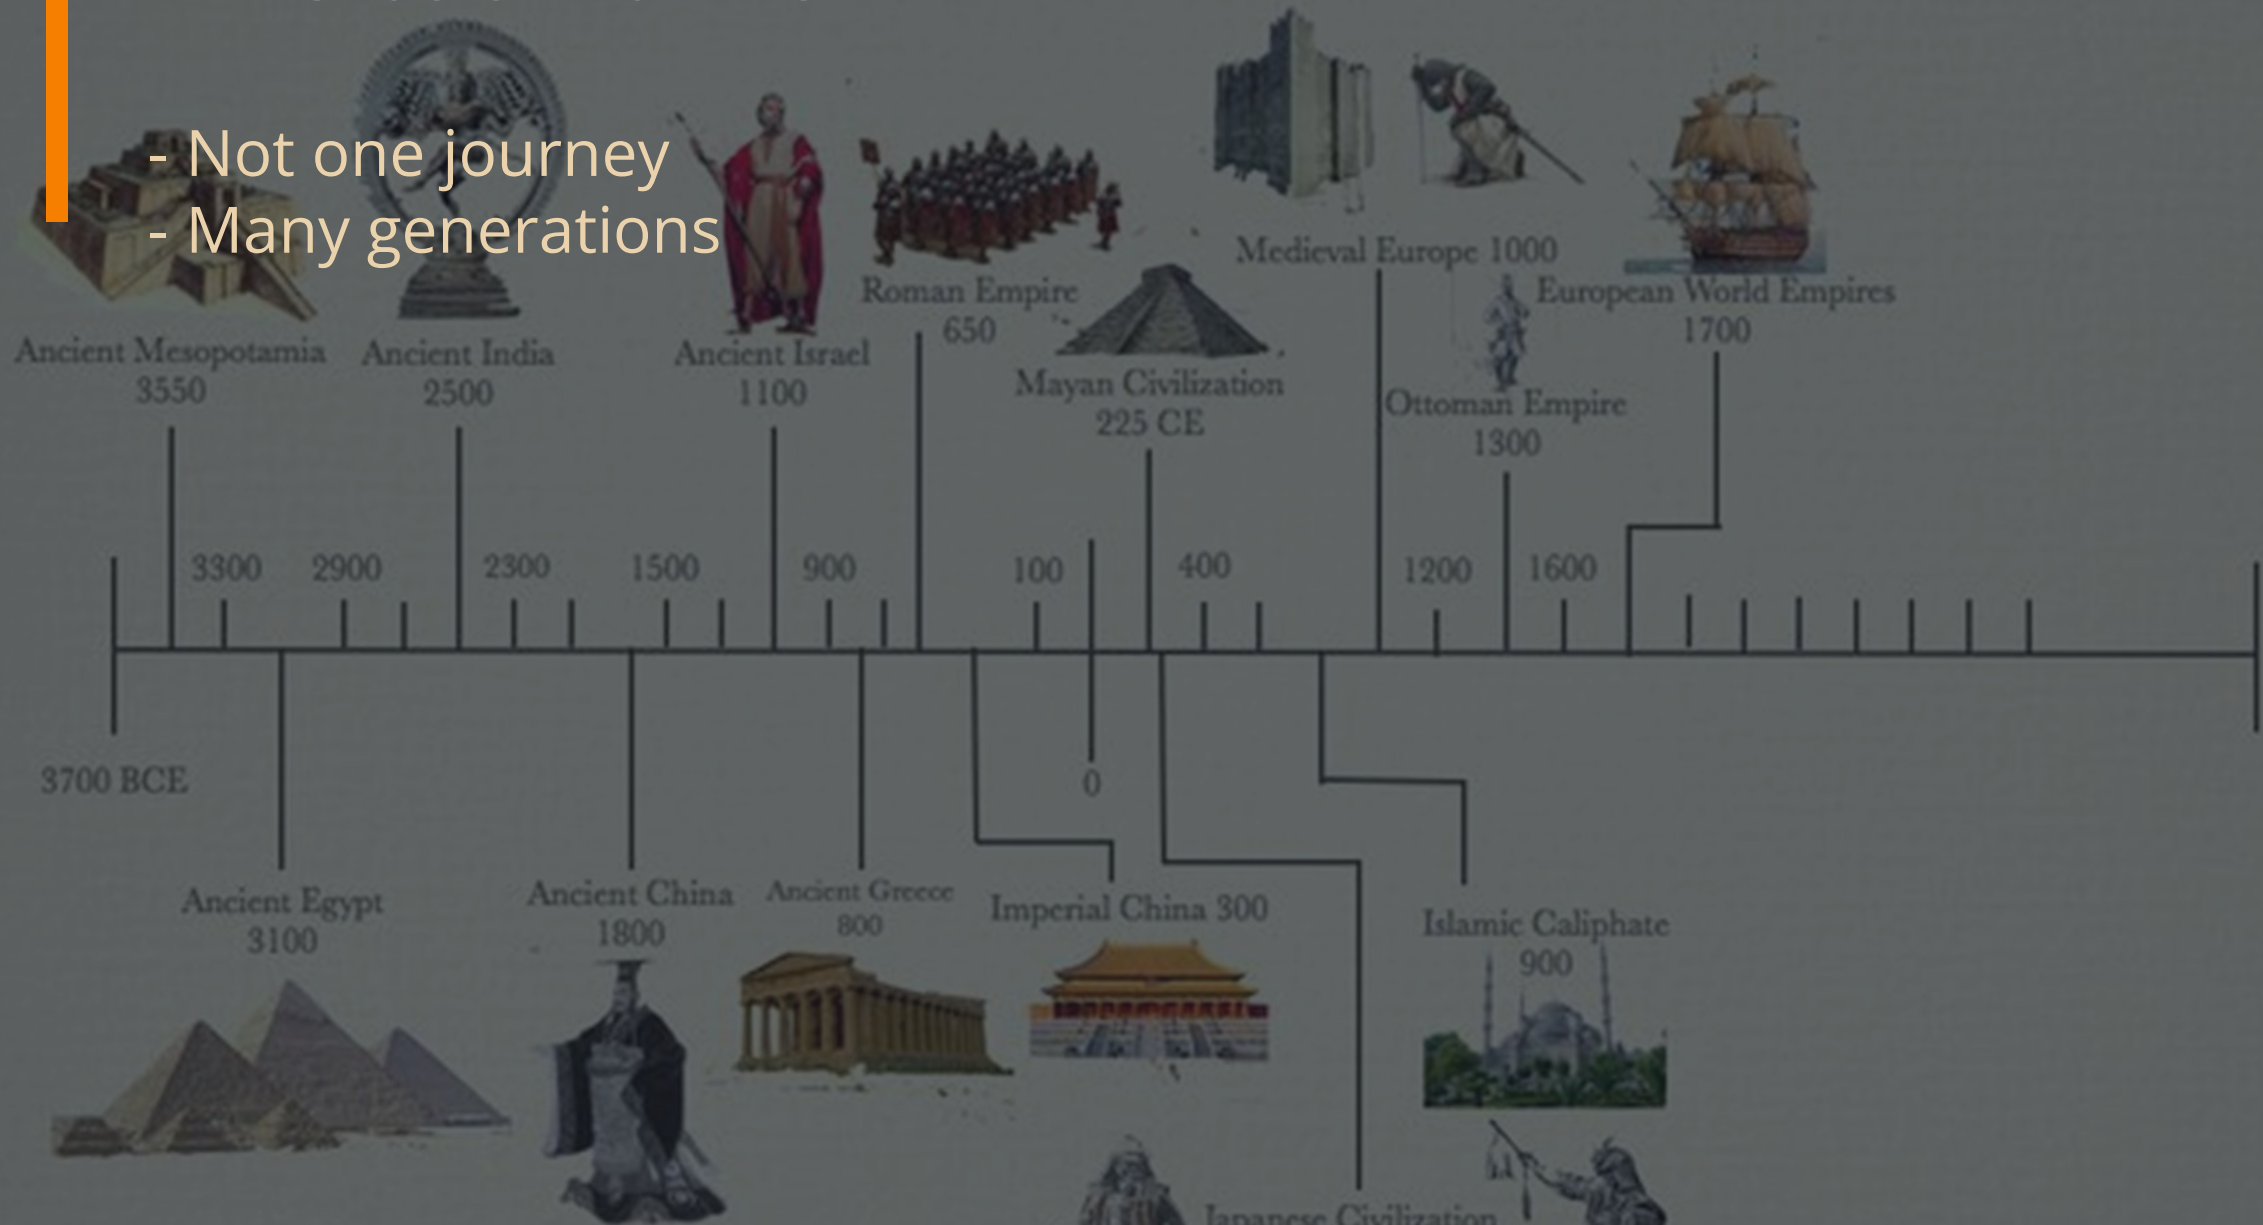

Key idea

Humans followed:

- food 🍕
- water 💧
- safety 🛡️

This took time

- Not one journey
- Many generations

Eventually...

People stopped moving

Where would you settle?

- Water 
- Food 
- Safety 

This is where civilisations begin

- Nile
- Indus
- Yellow River

Final question

Would you have survived?

Reflection
